

! Cheap DIP Website Privacy Policy

This privacy policy ("policy") will help you understand how ! Cheap DIP ("us", "we", "our") uses and protects the data you provide to us when you visit and use mvadip.com ("service") and the registration form.

For most users our program is one time and done. We retain the information we collect solely because of the requirement of the Maryland Motor Vehicle Administration (MVA) to do so.

What User Data We Collect

When you visit our website, we collect the following data:

- Your name.
- Your contact information and email address.
- Photo ID to verify your identity (including birthdate and driver license or other id number) as required by the Maryland Motor Vehicle Administration

Why We Collect Your Data

We are collecting your data to allow you to sign up for our driver improvement program, and for the final quiz that follows the slide course.

In almost all cases we share your name, license/id#, birthdate, and quiz score and date taken with the Maryland MVA. Some users' completions are not reported to MVA because of special circumstances.

We do not share or sell your data to anyone else.

Safeguarding and Securing the Data

We are committed to securing your data and keeping it confidential, and to prevent data theft, unauthorized access, and disclosure by implementing the latest technologies and software, which help us safeguard all the information we collect online.

Our Cookie Policy

We don't use cookies.

Links to Other Websites

We use form software from [jotform](http://jotform.com) for users to register for the final quiz. We use [square](http://square.com) as our payment processor. We do not collect any payment information.

Restricting the Collection of your Personal Data

We would prefer not to collect any of your data but unfortunately our program would not

work without doing so. Some of that data are potentially exposed when we communicate with you via email, text, and other website applications. We ask that you ONLY use a random AND strong password for our program.

At some point, you might wish to restrict the use and collection of your personal data. You can achieve this by not using our driver improvement program.
